# Evolution of the environment and Lectra's markets

**Some consequences of the COVID-19 crisis and the current upturn in the global economy have had and continue to have a negative impact**

## Electronic components

Shortages of electronic components are having a negative impact on production by the Group's Automotive customers and, consequently, on its revenue from consumables and parts.

## Raw materials and transport

Supply difficulties and the rising cost of certain raw materials are affecting the Group's manufacturing schedules and costs. Maritime transport issues are causing delays in deliveries and sharply higher transport costs.

## Health situations

Some countries have faced and are still facing epidemic outbreaks. The very strict lockdown in Vietnam has led to the complete stoppage of a significant portion of manufacturing activity, and the Group's activity in the country has been severely reduced for several months

## Electronic components

Shortages of electronic components are having a negative impact on production by the Group's Automotive customers and, consequently, on revenues from consumables and parts.

## Raw materials and transport

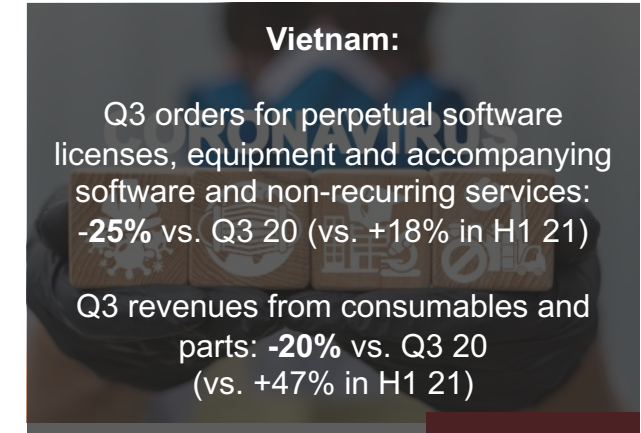

**The increase in raw materials had a limited impact on gross profit**

Supply of raw materials are affecting the Group's manufacturing schedules and costs. Maritime transport issues are causing delays in deliveries and sharply higher transport costs.

**By anticipating the supply of those products for which there was a risk of shortage, manufacturing schedules were not affected**

## Health situations

Some countries have faced and are still facing epidemic outbreaks. The very strict lockdown in Vietnam has led to the complete stoppage of a significant portion of manufacturing activity, and the Group's activity in the country has been severely reduced for several months

**So far, however, the Group has been able to limit the impact of these disruptions on its business and results.**

# Strategic roadmap for 2020-2022: progress report

## Acceleration towards Industry 4.0

As announced on February 11, 2020, the objective of Lectra through its 2020-2022 strategic roadmap is to capture the full potential of its new offers for Industry 4.0, while delivering sustainable, profitable business growth.

The objectives of the 2020-2022 strategic roadmap remain unchanged.

# Strategic roadmap for 2020-2022: progress report

Reminder of the five strategic priorities as revised on February 10, 2021, following the announcement of the Gerber Technology acquisition project

1

Accelerate organic growth

2

Strengthen customer relations

3

Extend the offers for Industry 4.0

Develop new areas for growth

4

Capture all synergies arising from the acquisition of Gerber Technology

5

These five strategic priorities continue to guide the Group's actions: progress has been made on each of them.

## Acquisition of Neteven to reinforce the offer around e-commerce

Founded in 2005, Neteven has developed a particularly innovative offer, based on a SaaS platform and associated services, which enables brands to simplify and effectively monitor the distribution of their products on the world's largest online marketplaces.

The Neteven team provides its technological and services expertise to prestigious brands to help them optimize their e-commerce strategy.

**Greg Zemor,**  
CEO and co-founder, Neteven

*“With Lectra, we will be able to cover the entire chain, from production to distribution. We will respond to brands’ Direct-to-Consumer strategy issues. This union will allow us to go even further in terms of innovation, value creation, and business as well as international expansion.”*
