

# Modaris and Gerber AccuMark subscriptions

Gain access to an all-inclusive service offer that includes the CAD software, Lectra's remote technical support, and regular upgrades for an annual subscription fee.

## UPGRADES

### Why you should always use the latest software version

#### → For an efficient pattern development process

- Work **faster**
- Reduce **development costs**

#### → To avoid time-consuming conversion

Interoperability between Modaris and Gerber AccuMark to read files **without losing data**

#### → To improve employee satisfaction

- Improve **user experience**
- Work **remotely/from home**
- Increase **recruitment attractiveness**
- **Reduce the amount of training** needed

#### → For an optimal IT system

- Use the **latest and most secure operating systems**
- Connect with our Industry 4.0 solutions such as **Flex Offer** or **Fashion On Demand by Lectra**.

Trade-in your old licenses to subscribe at an attractive price for the first two years

## NEW LICENCES

### Get new licenses without taking any financial risk

#### → Keep your cash

Add more users to your subscription without buying new licenses. This way, you can **reduce your capital expenditure while expanding your installed base**.

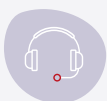

#### → Gain flexibility

**Add or remove licenses according to your activity load** and choose your subscription period (one or three years).

## SUPPORT

### Benefit from Lectra's technical expertise

#### → Remote assistance

Make the best of the software by getting **help in real time** to avoid production disruption.

#### → No additional costs

Technical support is part of the subscription plan, so there will be **no additional service contracts needed**.
