

# VECTOR

01

## REDUCE OPERATIONAL COSTS

### Average 1% gain

in material and the equivalent in roll goods for every one millimeter reduction in cutting buffer

- ✔ **Advanced** high-accuracy conveyor works in tandem with new image sensor **technology**
- ✔ Built-in blade management system guarantees **high-precision cutting**

02

## CSR AND SUSTAINABILITY

### Achieve sustainability goals

by decreasing the CO2 impact of your cutting room and increasing operator safety

- ✔ **Lower your carbon footprint** by reducing fabric waste and consumables
- ✔ **Ensure a safe place to work** with a new safety radar and ergonomic design

03

## HIGH MACHINE AVAILABILITY

### Gain up to 38h

additional availability, per year

with preventive maintenance and long-life consumables

- ✔ **Minimized downtime** and **improved equipment productivity** help to substantially reduce the scrap rate

“Lectra is an ideal partner. Its Vector solution allows us to achieve operational excellence, and provides us with various benefits owing to its advanced technology. Vector’s predictive maintenance ensures high machine availability.”

**Guo XiaoBing,**  
General Manager, Guangzan
