

ImagePerfect™ 2536PA Light Silver Frost

DESCRIPTION

ImagePerfect 2536PA Light Silver Frost from Gerber Technology is a semi-opaque, matte, decorative, polymeric vinyl, window film suitable for creating an etched glass or matte effect on glass and other clean, dry surfaces. It can be used in most interior applications and many exterior decorative and display applications where an etched glass or matte effect is required on a glass substrate, primarily for window decoration. The metallic effect in the film allows for a broader aesthetic choice in relation to the backdrop provided by a 'standard' decorative window film.

IP 2536PA has been specially formulated to promote 7-year exterior durability, has a high-quality liner with outstanding lay-flat capabilities, and its Perfect Apply technology facilitates repositioning and bubble-free application.

IP 2536PA promotes high-level print quality with remarkable text definition and a large color gamut, to ensure colorful images with vibrant area in-fills. It has been specially created for digital printing on large-format inkjet printers and is suitable for printing with eco solvent, solvent, UV-cured, and latex inks.

SPECIFICATIONS

Property	Description
Film	Glass decoration vinyl
Film Color	Matte Light Silver
Thickness	3 mil
Adhesive	Solvent based acrylic, permanent
Adhesive Strength	20N / 25mm (Finat TM 1/24h)
Liner	PE-coated silicone paper, 6 oz/yd ²
Temperature Range	-22°F to 32 °F (-30°C to +90°C)
Durability (Unprinted)	7 years
Flame Retarding	B1 (German DIN 4102 B1)
Shelf Life	1 year, 68°F (20°C) / 50% humidity

Property	Description
Recommendation	For optimum quality, please ensure that the media feed adjustment has been completed for this material

NOTE: Technical Specifications are subject to change without prior notice. Output may vary depending on the type of print data/file, application, media, environmental conditions, print speed, or other variables.

APPLICATION

Make sure the printed IP 2536PA is completely dry before laminating. Before the IP 2536PA is applied, the surface should be completely cleaned
