

CONVEX® Helmet, Motorsport & Extreme Graphics Solutions

CONVEX® DISTRIBUTED BY GERBER TECHNOLOGY IS THE OPTIMAL CHOICE FOR HELMET, MOTORSPORT AND EXTREME EQUIPMENT GRAPHICS. BACKED BY THE GERBER EDGE® PRODUCTION SYSTEM, THESE QUALITY, DURABLE MATERIALS ARE FLEXIBLE ENOUGH TO CONFORM TO COMPLEX CURVES AND CREATE LONG-LASTING GRAPHICS. THEIR SPECIALTY ADHESIVES BOND WITH LSE AND HSE PLASTICS LIKE NO OTHER.

CONVEX® Gear-Wrap™

CONVEX® High-Bond™

The High-Contact Graphics Solution

Specifically designed to withstand serious impacts and harsh conditions, CONVEX® distributed by Gerber Technology delivers the ultimate blend of durability and conformability for extreme performance.

Helmet Decals

Manufacturing Equipment

Powersport Wraps

Watersport Graphics

Create graphics that are built to last.

- Designed for the GERBER EDGE thermal printing system as well as inkjet.
- Flexible, rugged; fits smoothly to curved surfaces.
- Ensure a firm hold on plastic, powdered paint, stainless steel and other LSE surfaces with Aggressive High-Bond adhesive.
- Resists wrinkling on complex curves when laminated with CONVEX or Pro-Shield™ Laminate.
- Won't fall off, ooze adhesive or collect dirt around the edges.
- Designed for smooth cutting with any sprocket, roll-fed or flatbed plotter.

Materials for every application.

- CONVEX Gear-Wrap is perfect for contact sport helmet decals. It stays in place and removes clean for up to one year.
- CONVEX High-Bond for complex curves on low energy surfaces like plastic and powdered paint, making it the go-to choice for Motorsport graphics.
- CONVEX Chrome offers a brilliant, mirror-like finish for outdoor applications. Unlike other brands, it won't oxidize and remains durable for 5-7 years.
- CONVEX Laminate provides extra durability to graphics forming to complex plastic shapes like helmets.
- Pro-Shield laminate acts as a steadfast protector, providing 12 mils of durable vinyl as a shield against contact, making it ideal for applications like Motorsport decals.

CONVEX® Gear-Wrap™

Helmets / Motorsport Equipment / Industrial Decals

- Soft, flexible vinyl.
- 15" Punched and printable with GERBER EDGE thermal transfer system and inkjet.
- Comes in 4 mil and 8 mil (with 1 mil adhesive).
- Available in Clear and White.
- Adhesive formulated for HSE surfaces.
- Removes cleanly without residue up to one year.
- 2 years outdoor UV durability.
- Service temperature range -40° F to +176° F.

CONVEX® High-Bond™

Motorsport / Industrial Machinery / LSE Surfaces

- Soft, flexible vinyl.
- 15" Punched and printable with GERBER EDGE thermal transfer system and inkjet.
- 6 mil (3.8 mil with 2 mil adhesive).
- Available in Clear and White.
- Aggressive permanent adhesive formulated for low energy surfaces.
- 2 years outdoor durability (depending on application).
- Service temperature range -40° F to +176° F.
- Unique ability to be removed more easily when frozen.

CONVEX® Chrome

Vehicle / Marine / Power Tool / Window / Premium

- Synthetic mirror media, flexible.
- 15" Punched and printable with GERBER EDGE thermal transfer system and inkjet.
- 3 mil (1.5 mil film with 1.5 mil adhesive).
- Mirror finish with protective top-mask.
- Doesn't oxidize like other chrome films.
- Aggressive High-Bond adhesive ensures a firm hold on plastic, powdered-paint (enamel) and LSE.
- Fits smoothly to flat and moderately curved surfaces.
- 5-7 years outdoor UV durability (depends on application).
- Service temperature range -40° F to +212° F.

CONVEX® Laminate

Helmet / Powersport / Watersport / Protection

- Vinyl over-laminating film, soft, flexible.
- 13" works with GERBER EDGE, inkjet printers and all sprocket/friction/flatbed plotters.
- Comes in 4 mil (with 1 mil adhesive) or 8 mil (with 1.4 mil adhesive).
- Clear gloss finish.

Pro-Shield™ Laminate

Motorsport / Vehicle / Industrial / High Impact

- Thick vinyl over-laminating film, flexible, rugged.
- 13" works with GERBER EDGE, inkjet printers and all sprocket/friction/flatbed plotters.
- 12 mil (plus 1.5 mil adhesive).
- Clear gloss finish.

12 mils of graphics protection

Superior high-gloss finish
